
Graph revision AC - in01: A-COL internals as envelope solids: support grid, two packed beds (2303 mm total PP pall rings, in-house cut per the node design), re
Graph revision AC - in01: Ring count and mesh not modelled piece-wise; the node internals row is none, so the tracker records no internal solid (hold, W12)
Graph revision AC - in01: Bed elevations are the layout choice - the node design gives packed height only; no stag
